October 2019

Thank you for your willingness to serve on the Council on Homelessness (Council). Together with other stakeholders in every community around the state we are dedicated to reducing homelessness and caring for some of our most vulnerable citizens. As a representative of the State Office on Homelessness (Office), allow me to familiarize you with the important work the Council is engaged in.

Created in 2001, this 17-member Council, consisting of public and private representatives, exists to develop policy and advise the Office. We also collaborate with agency leaders and local homeless Continuum of Care (CoC) lead agencies to find ways to better serve our most vulnerable neighbors.

The Council currently carries out three committee calls every month and convenes in quarterly, face-to-face meetings which are all open to the public. The Office staffs these committee calls and meetings and will keep Council members briefed on all upcoming events. Please visit our website for up to date information related to all Council and Office meetings, events, and funding.

In this packet you will find information necessary to carry out the duties of a Council member. Please feel free to call or email me with any questions or concerns you have.

We look forward to working alongside you and the team you work with to continue in the fight to eliminate homelessness in Florida.

Challenge Grants made through the State Office on Homelessness shall be distributed to lead agencies based on their overall performance and their achievement of specified objectives. Each lead agency for which grants are made under this section shall provide the State Office on Homelessness a thorough evaluation of the effectiveness of the program in achieving its stated purpose. In evaluating the performance of the lead agencies, the State Office on Homelessness shall base its criteria upon the program objectives, goals, and priorities that were set forth by the lead agencies in their proposals for funding. Such criteria may include, but are not limited to, the number of persons or households that are no longer homeless, the rate of recidivism to homelessness, and the number of persons who obtain gainful employment.

(7) The State Office on Homelessness must monitor the challenge grants and homeless housing assistance grants to ensure proper expenditure of funds and compliance with the conditions of the applicant's contract.

(8) The Department of Children and Families, with input from the Council on Homelessness, must adopt rules relating to the challenge grants and the homeless housing assistance grants and related issues consistent with the purposes of this section.

The State Office on Homelessness shall supply a standardized format for written plans, including the reporting of data.

(4) Each local homeless assistance continuum of care plan must designate a lead agency that will serve as the point of contact and accountability to the State Office on Homelessness. The lead agency may be a local homeless coalition, municipal or county government, or other public agency or private, not-for-profit corporation.

(5) Continuum of care catchment areas must be designated and revised as necessary by the State Office on Homelessness, with the input of local homeless coalitions and public or private organizations that have previously certified to the United States Department of Housing and Urban Development and that currently serve as lead agencies for a local homeless assistance continuum of care. Designated catchment areas must not be overlapping. The designations must be consistent with those made by the United States Department of Housing and Urban Development in conjunction with the awarding of federal Stewart B. McKinney Act homeless assistance funding.

(6) The State Office on Homelessness shall recognize only one homeless assistance continuum of care plan and its designated lead agency for each designated catchment area. The recognition must be made with the input of local homeless coalitions and public or private organizations that have previously certified to the

United States Department of Housing and Urban Development that they currently serve as lead agencies for a local homeless assistance continuum of care. The designations must be consistent with those made by the United States Department of Housing and Development in conjunction with the awarding of federal Stewart B. McKinney Act homeless assistance funding.

(7) The components of a continuum of care plan should include:

- (a) Outreach, intake, and assessment procedures in order to identify the service and housing needs of an individual or family and to link them with appropriate housing, services, resources, and opportunities;
- (b) Emergency shelter, in order to provide a safe, decent alternative to living in the streets;
- (c) Transitional housing;
- (d) Supportive services, designed to assist with the development of the skills necessary to secure and retain permanent housing;
- (e) Permanent supportive housing;
- (f) Rapid ReHousing, as specified in s. 420.6265;
- (g) Permanent housing;
- (h) Linkages and referral mechanisms among all components to facilitate the movement of individuals and families toward permanent housing and self-sufficiency;
- (i) Services and resources to prevent housed persons from becoming or returning to homelessness; and
- (j) An ongoing planning mechanism to address the needs of all subgroups of the homeless population, including but not limited to:
 - 1. Single adult males;
 - 2. Single adult females;
 - 3. Families with children;
 - 4. Families with no children;
 - 5. Unaccompanied children and youth;
 - 6. Elderly persons;
 - 7. Persons with drug or alcohol addictions;
 - 8. Persons with mental illness;
 - 9. Persons with dual or multiple physical or mental disorders;
 - 10. Victims of domestic violence; and
 - 11. Persons living with HIV/AIDS.

(8) Continuum of care plans must promote participation by all interested individuals and organizations and may not exclude individuals and organizations on the basis of race, color, national origin, sex, handicap, familial status, or religion. Faith-based organizations must be encouraged to participate. To the extent possible, these components must be coordinated and integrated with other mainstream health, social services, and employment programs for which homeless populations may be eligible, including Medicaid, State Children's Health Insurance Program, Temporary Assistance for Needy Families, Food Assistance Program, and services

funded through the Mental Health and Substance Abuse Block Grant, the Workforce Innovation and Opportunity Act, and the welfare-to-work grant program.

420.625 Grant-in-aid program.—

(1) **LEGISLATIVE FINDINGS.**—The Legislature hereby finds and declares that most services for the homeless have been provided by local communities through voluntary private agencies and religious organizations and that the growing numbers and increasing needs of the homeless have generally outstripped the capabilities of such local agencies to adequately respond to the problems of the homeless in Florida. The Legislature further recognizes that the level of need and types of problems associated with homelessness may vary widely from community to community, due to the diversity and geographic distribution of the homeless population and the resulting differing needs of particular communities. While the need of all homeless and displaced persons for services is recognized, it is the legislative intent that, in awarding financial assistance to local agencies under this section, preference be given to those agencies offering services targeted for the new and temporary homeless.

(2) **PURPOSE.**—The principal objective of this program is to provide needed assistance to local agencies to enable them to:

(a) Assist persons in their communities who have become, or are about to become, homeless.

(b) Where possible, restore the homeless living in their communities to suitable living conditions and self-sufficiency as quickly as possible.

(3) **ESTABLISHMENT.**—There is hereby established a grant-in-aid program to help local communities in serving the needs of the homeless through a variety of supportive services, which may include, but are not limited to:

(a) Public education and outreach programs.

(b) Information and referral services, including state and local telephone hotlines and local emergency shelter location and housing location services.

(c) Case management services.

(d) Emergency financial assistance for persons who are totally without shelter or facing loss of shelter.

(e) Emergency and temporary shelter programs.

(f) Temporary rent and income supplements.

(g) Job counseling and assistance programs, including temporary day care services, for persons seeking employment.

(h) Meals programs.

(i) Services coordination.

(4) **APPLICATION PROCEDURE.**—Local agencies shall submit an application for grant-in-aid funds to the district administrator for review. During the first year of implementation, district administrators shall begin to accept applications for district funds no later than October 1, 1988, and by August 1 of each year thereafter for

which funding for this section is provided. District funds shall be made available to local agencies no more than 30 days after the deadline date for applications for each funding cycle.

(5) SPENDING PLANS.—The department shall develop guidelines for the development of spending plans and for the evaluation and approval by district administrators of spending plans, based upon such factors as:

(a) The demonstrated level of need for the program.

(b) The demonstrated ability of the local agency or agencies seeking assistance to deliver the services and to assure that identified needs will be met.

(c) The ability of the local agency or agencies seeking assistance to deliver a wide range of services as enumerated in subsection (3).

(d) The adequacy and reasonableness of proposed budgets and planned expenditures, and the demonstrated capacity of the local agency or agencies to administer the funds sought.

(e) A statement from the local coalition for the homeless as to the steps to be taken to assure coordination and integration of services in the district to avoid unnecessary duplication and costs.

(f) Assurances by the local coalition for the homeless that alternative funding strategies for meeting needs through the reallocation of existing resources, utilization of volunteers, and local government or private agency funding have been explored.

(g) The existence of an evaluation component designed to measure program outcomes and determine the overall effectiveness of the local programs for the homeless for which funding is sought.

(6) ALLOCATION OF GRANT FUNDS TO DISTRICTS.—State grant-in-aid funds for local initiatives for the homeless shall be allocated by the department to, and administered by, department districts. Allocations shall be based upon sufficient documentation of:

(a) The magnitude of the problem of homelessness in the district, and the demonstrated level of unmet need for services in the district for those who are homeless or are about to become homeless.

(b) A strong local commitment to seriously address the problem of homelessness as evidenced by coordinated programs involving preventive, emergency, and transitional services and by the existence of active local organizations committed to serving those who have become, or are about to become, homeless.

(c) Agreement by local government and private agencies currently serving the homeless not to reduce current expenditures for services presently provided to those who are homeless or are about to become homeless if grant assistance is provided pursuant to this section.

(d) Geographic distribution of district programs to ensure that such programs serve both rural and urban areas, as needed.

(7) DISTRIBUTION TO LOCAL AGENCIES.—District funds so allocated shall be available for distribution by the district administrator to local agencies to fund programs such as those set forth in subsection (3), based upon the recommendations of the local coalitions in accordance with spending plans developed by the coalitions and approved by the district administrator. Not more than 10 percent of the total state funds awarded under a spending plan may be used by the local coalition for staffing and administration.

(8) **LOCAL MATCHING FUNDS.**—Entities contracting to provide services through financial assistance obtained under this section shall provide a minimum of 25 percent of the funding necessary for the support of project operations. In-kind contributions, whether materials, commodities, transportation, office space, other types of facilities, or personal services, and contributions of money or services from homeless persons may be evaluated and counted as part or all of this required local funding, in the discretion of the district administrator.

420.626 Homelessness; discharge guidelines.—

(1) It is the intent of the Legislature, to encourage mental health facilities or institutions under contract with, operated, licensed, or regulated by the state and local governments to ensure that persons leaving their care or custody are not discharged into homelessness.

(2) The following facilities and institutions are encouraged to develop and implement procedures designed to reduce the discharge of persons into homelessness when such persons are admitted or housed for more than 24 hours at such facilities or institutions: hospitals and inpatient medical facilities; crisis stabilization units; residential treatment facilities; assisted living facilities; and detoxification centers.

(3) The procedures should include:

(a) Development and implementation of a screening process or other mechanism for identifying persons to be discharged from the facility or institution who are at considerable risk for homelessness or face some imminent threat to health and safety upon discharge;

(b) Development and implementation of a discharge plan addressing how identified persons will secure housing and other needed care and support upon discharge;

(c) Assessment of the capabilities of the entities to whom identified persons may potentially be discharged, and selection of the entity determined to be best equipped to provide or facilitate the provision of suitable care and support;

(d) Coordination of effort and sharing of information with entities that are expected to bear the responsibility for providing care or support to identified persons upon discharge; and

(e) Provision of sufficient medication, medical equipment and supplies, clothing, transportation, and other basic resources necessary to assure that the health and well-being of identified persons are not jeopardized upon their discharge.

(4) This section is intended only to recommend model guidelines and procedures that mental health facilities or institutions under contract with or operated, licensed, or regulated by the state or local governments may consider when discharging persons into the community. This section is not an entitlement, and no cause of action shall arise against the state, the local government entity, or any other political subdivision of this state for failure to follow any of the procedures or provide any of the services suggested under this section.

History.—s. 13, ch. 2001-98.

420.6265 Rapid ReHousing.—

(1) **LEGISLATIVE FINDINGS AND INTENT.**—

(a) The Legislature finds that Rapid ReHousing is a strategy of using temporary financial assistance and case management to quickly move an individual or family out of homelessness and into permanent housing.

(b) The Legislature also finds that public and private solutions to homelessness in the past have focused on providing individuals and families who are experiencing homelessness with emergency shelter, transitional housing, or a combination of both. While emergency shelter and transitional housing programs may provide critical access to services for individuals and families in crisis, the programs often fail to address their long-term needs.

(c) The Legislature further finds that most households become homeless as a result of a financial crisis that prevents individuals and families from paying rent or a domestic conflict that results in one member being ejected or leaving without resources or a plan for housing.

(d) The Legislature further finds that Rapid ReHousing is an alternative approach to the current system of emergency shelter or transitional housing which tends to reduce the length of time a person is homeless and has proven to be cost effective.

(e) It is therefore the intent of the Legislature to encourage homeless continuums of care to adopt the Rapid ReHousing approach to preventing homelessness for individuals and families who do not require the intense level of supports provided in the permanent supportive housing model.

(2) **RAPID REHOUSING METHODOLOGY.—**

(a) The Rapid ReHousing response to homelessness differs from traditional approaches to addressing homelessness by focusing on each individual's or family's barriers to housing. By using this approach, communities can significantly reduce the amount of time that individuals and families are homeless and prevent further episodes of homelessness.

(b) In Rapid ReHousing, an individual or family is identified as being homeless, temporary assistance is provided to allow the individual or family to obtain permanent housing as quickly as possible, and, if needed, assistance is provided to allow the individual or family to retain housing.

(c) The objective of Rapid ReHousing is to provide assistance for as short a term as possible so that the individual or family receiving assistance does not develop a dependency on the assistance.

History.—s. 7, ch. 2016-210.

420.6275 Housing First.—

(1) **LEGISLATIVE FINDINGS AND INTENT.—**

(a) The Legislature finds that many communities plan to manage homelessness rather than plan to end it.

(b) The Legislature also finds that for most of the past two decades, public and private solutions to homelessness have focused on providing individuals and families who are experiencing homelessness with emergency shelter, transitional housing, or a combination of both. While emergency shelter programs may provide critical access to services for individuals and families in crisis, they often fail to address their long-term needs.

(c) The Legislature further finds that Housing First is an alternative approach to the current system of emergency shelter or transitional housing which tends to reduce the length of time of homelessness and has proven to be cost-effective.

(d) It is therefore the intent of the Legislature to encourage homeless continuums of care to adopt the Housing First approach to ending homelessness for individuals and families.

(2) HOUSING FIRST METHODOLOGY.—

(a) The Housing First approach to homelessness differs from traditional approaches by providing housing assistance, case management, and support services responsive to individual or family needs after housing is obtained. By using this approach when appropriate, communities can significantly reduce the amount of time that individuals and families are homeless and prevent further episodes of homelessness. Housing First emphasizes that social services provided to enhance individual and family well-being can be more effective when people are in their own home, and:

1. The housing is not time-limited.

2. The housing is not contingent on compliance with services. Instead, participants must comply with a standard lease agreement and are provided with the services and support that are necessary to help them do so successfully.

3. A background check and any rehabilitation necessary to combat an addiction related to alcoholism or substance abuse has been completed by the individual for whom assistance or support services are provided.

(b) The Housing First approach addresses the societal causes of homelessness and advocates for the immediate return of individuals and families into housing and communities. Housing First provides a critical link between the emergency and transitional housing system and community-based social service, educational, and health care organizations and consists of four components:

1. Crisis intervention and short-term stabilization.

2. Screening, intake, and needs assessment.

3. Provision of housing resources.

4. Provision of case management.

CHAPTER 414.161

414.161 Homelessness prevention grants.—

(1) ESTABLISHMENT OF PROGRAM.—There is created a grant program to provide emergency financial assistance to families facing the loss of their current home due to a financial or other crisis. The State Office on Homelessness, with the concurrence of the Council on Homelessness, may accept and administer moneys appropriated to the Department of Children and Families to provide homelessness prevention grants annually to lead agencies for local homeless assistance continuums of care, as recognized by the State Office on Homelessness. These moneys shall consist of any sums that the state may appropriate, as well as money received from donations, gifts, bequests, or otherwise from any public or private source that is intended to assist families to prevent them from becoming homeless.

(2) GRANT APPLICATIONS.—Grant applicants shall be ranked competitively. Preference shall be given to applicants who leverage additional private funds and public funds, who demonstrate the effectiveness of their homelessness prevention programs in keeping families housed, and who demonstrate the commitment of other assistance and services to address family health, employment, and education needs.

(3) ELIGIBILITY.—In order to qualify for a grant, a lead agency must develop and implement a local homeless assistance continuum of care plan for its designated catchment area. The homelessness prevention program must be included in the continuum of care plan.

(4) GRANT LIMITS.—The maximum grant amount per lead agency may not exceed \$300,000. The grant assistance may be used to pay past due rent or mortgage payments, past due utility costs, provision of case management services, and program administration costs not to exceed 3 percent of the grant award. The homelessness prevention program must develop a case plan for each family to be assisted, setting forth what costs will be covered and the maximum level of assistance to be offered.

(5) PERFORMANCE.—The lead agency must track, monitor, and report on each family assisted for at least 12 months after the last assistance provided to the family. The goal for the homelessness prevention program is to enable at least 85 percent of the families assisted to remain in their homes and avoid becoming homeless during the ensuing year.
